

1. All About Gujarat N.R.G And N.R.I

“Basically Gujarat and Gujaratis are hidden jewels of India and to my knowledge Gujarat is yet not being promoted well, neither Gujarati in Gujarat nor any NRI/NRGs had understood its responsibility or rather learned about the hidden potentiality uptill now and this has to be improved with team planning.”

Usually culture and Trades moves together and it has to be harmonized perfectly. During the Trade fair, events, or Exhibitions, promotions of Gujarat Culture has to be focussed. Normally Business opportunity, Culture, Forecard, its (Hast-kala and Karigiri) like Gurjari people are promoting in Mumbai the same has to be promoted during events and abroad too. Since from last 3/years many Gujarati in Gujarat and NRGs & NRIs had kept distances from "Garvi-Gujarat", even Gujarati language (vanchit) unknown to many NRGs too. In literature part, Gujarati Gazals, Song Garba the RAP of Devang Patel had changed the platform and ancient poets And Folk singers Such as Hemu Gadhvi, Prafful Dave, Gujarat Ni "Koyal" Divali Ben Bhill, Damayanti Ben Baradai, Poet Such as Befam (Barkat Virani) Harinder Dave, Suresh Dalal, Ramesh Parekh. Anil Joshi. Last Not But Least Bhai Shri Avinash Vyas.....Are Considered As Old Issue Now

Let us take an example of Swami Narayan people real unity in diversity, peace, spirituality, building of Temples got a name in Guinness book of world records, Really establishing culture with great understanding only a great "Sant" can do it. I am really sorry to state this but, I am blunt, but still let me mention here that at UN At NY USA.

Pramukhswami Bapa has spoken in our mother tongue, GUJARATI but this issue has never been brought up by Gujarat Any Gujarati Or Gujarat Govt., This issue

has never being promoted so far.to which we are proud of As
"GUJARATI".....

Non Resident Gujarati(s)NRGs has to be attracted towards Gujarat ,During 1990 lot of NRIs and Gujarati(s)had bitter experiences about economical conditions but after that they are also human being,over and above man & woman they are human and necessary "Brain-Wash" process has to be undertaken and "Confident"has to be re-built up with NRGs.Really Gujarat does have good Exports market,opportunities are existing,potentials are to be explored and commitments are to be undertaken,its great challenge infront of India and by boosting morals of Chapters, honorary-Ambassadors etc residing abroad.,then never the situations will come to put forward your hands for funds.

I know lot of Non Resident Chinese residing abroad forward their funds/contributions voluntarily to China to make China self-sufficient and if this example is observed then never the situations will come to go to IMF and World bank for funds.

NRI & NRGs foundations is Gujarati itself,I repeat Gujarati itself, Culture itself and their 5/10 dollars of regular contributions will be enough to fight with drought situations.I think so somewhere something is LACKING, things are not to be focussed only on "Personnel-Agenda" and "Economical conditions" but a real understanding from the grassroots level has to be changed.

Pls. forgive me and pls. forget if i have written anything beyond but I am sorry to state the facts and hope definitely the day will come where Gujarat will be put on **TOP LEVEL.NRGs will show their Engergy and merely re-charging their battries'energy with boosting of moral and confidants will turn to the favorable situations.**

Thanks and regards
